That's 13 hours on our course, 6 meals, and a 2 night stay!

Faith Building Experiences

Experiential education has been creating positive, team-focused environments for years. Working with trained facilitators, your group members will have to **put the group's goals above their individual goals** in order to accomplish the challenges presented to them.

Your program can be designed according to the needs of your group. Practice **self-sacrifice** when working through difficult tasks. Use metaphors from the safety equipment and apply them to the **spiritual journey** of your group. Allow others to push themselves beyond what they thought they could do by creating a **positive and encouraging atmosphere**. Group members will learn more about themselves and one another on our challenge course. Add in plenty of time for **solo devotions and large group worships** and you'll have a solid, faith building experience.

We'll work with you to make a custom program that develops the characteristics you would like to bring out in your group. No matter what the program focus, every group leader talks about the **intense bonding** that naturally happens on our challenge course. There is nothing else like it! The atmosphere is professional, yet relaxed. The challenges are difficult, yet fun. The more you put into it, the more you get out of it. The overall experience is **rewarding and unforgettable**.

The reverse side of this card shows our pre-packaged programs, their itineraries, and costs. Our website has additional information about how to register, testimonials from group leaders, and frequently asked questions. Be sure to check it out.

To register or if you have questions about the program, please contact Korey Breutzmann at korey@pathwaysbiblecamps.com or 218-760-4212. We look forward to working with you!
